

# LB3-CHS

Little Board™ Development Platforms • *Quick Start self-hosted development system*

The Little Board Development Platform provide an integrated and easy to use self-hosted development environment that lets you maximize the benefit of using Ampro's off-the-shelf PC-compatible modules as the basis of your embedded system design. The development platforms provide everything you need to get started "right out-of-the-box"—even a licensed copy of DOS so you can boot up and start developing immediately.

The platform's open-frame benchtop chassis makes both software and hardware development convenient and reliable: a floppy drive accepts 1.44M diskettes; an IDE hard drive provides plenty of storage for applications and data; a convenient spare drive bay location is available for adding CD ROM or other drives; a high quality DC power supply easily powers all the basic system modules plus your application-specific circuitry; all required

cables and I/O connectors are also included. Just plug in a keyboard and monitor, connect to an AC power outlet, and boot the operating system!

There are two platform configurations available. The LB3-CHS-K-71/72 provides a PC/104-Plus expansion location so you can install additional PC/104-Plus and PC/104 modules. Or, you can add conventional PCI and PC/AT bus plug-in cards by installing them in the system's and PC/AT expansion slots. The LB3-CHS-K-73/74 offers PC/104 expansion plus two slots for standard PC/AT plug-in cards.

Each Little Board development platform is tailored to match your application's requirements. When ordering, specify the Little Board and development platform of your choice.

# LB3-CHS

## SPECIFICATIONS

### MECHANICAL

- SIZE** • 13 x 10 x 6 in. (330 x 254 x 152 mm)
- POWER** • Supply outputs:
  - +5V  $\geq$  18A
  - -5V  $\geq$  0.3A
  - +12V  $\geq$  4A
  - -12V  $\geq$  0.3A
- TOTAL POWER** • Output:  $\geq$  140 W
- INPUT VOLTAGE** • 110 or 220 VAC at 50 - 60 Hz
- IDE DISK DRIVE** • > 1 GB
- FLOPPY DISK DRIVE** • 3.5 inch, 1.44 MB
- ENVIRONMENTAL** • +10° to +45° C temperature
- 10% to 85% relative humidity, non-condensing
- Storage temperature: -40° to +60° C
- Weight: 11.7 pounds (332 gm)

### LB3-CHS-K-71/72 versions

#### PC/104-Plus EXPANSION

- Designed for use with Little Board/P5x, Little Board/P5e, Little Board/P5i
- One expansion stack location can stack multiple modules together
- Compatible with PC/104-Plus bus
- Compatible with PC/104 Version 2 bus

#### PCI-ISA BACKPLANE

- Two expansion slots compatible with 32-bit PCI expansion boards
- Two expansion slots compatible with 16-bit ISA expansion boards
- Provides PC/104-style "AC termination"

### LB2-CHS-K-73/74 versions

#### PC/104 EXPANSION

- Designed for use with Little Board/486i
- One expansion stack location
- Compatible with PC/104 Version 2 bus

#### ISA BACKPLANE

- Two expansion slots compatible with 16-bit ISA expansion boards
- Provides PC/104-style "AC termination"
