

The InClose Design Mobile Dock™ is designed for high-performance PCs and servers. Incorporating patented BayCooler design, the Mobile Dock™ delivers high capacity hard drive portability with the added benefit of built-in cooling. Mobile Dock™ is the perfect solution for making system backups that can be immediately accessed when needed, RAID subsystems, transporting larger amounts of data and other applications that require reliable portability. With its built-in cooling system, the Mobile Dock™ effectively dissipates significant heat from hard drives and lowers the internal operating temperature by 10° to 30° Fahrenheit.

The Mobile Dock™ is available in IDE Ultra 33/66 and Ultra 160 SCSI formats*. Mobile Dock™ - a simple, cost effective solution to protect your valuable data from hard drive heat failure.
