

# ACID TRANSFER STATION

For collecting corrosive liquids, or where gravity drains are not available, depend on Leatherwood Plastics' reliable and economical collection and transfer stations. Tank sizes allow convenient placement under sinks. Special sizes for other applications are available.

The unit features all plastic construction, and the quiet plastic pump has no seals or bearings. Depending on the service required, many sizes of pumps can be furnished in Polypropylene, PVDF, CPVC, or PVC. A maintenance-free level control assures reliable start-stop operation. Optional basket strainer for inlet is recommended.

| SIZE*         | GALS. | H/P  | MAX PUMP<br>Flow (GPM<br>@ 1 FT. HEAD) |
|---------------|-------|------|--|
| 18 x 12 x 18" | 10    | 1/15 | 8                                      |
| 24 x 18 x 18" | 20    | 1/15 | 8                                      |
| 18 x 12 x 18" | 10    | 1/8  | 18                                     |
| 24 x 18 x 18" | 20    | 1/8  | 18                                     |
| 30 x 24 x 18" | 30    | 1/3  | 25                                     |
| 24 x 18 x 18" | 20    | 3/4  | 50                                     |
