Network Communication Products

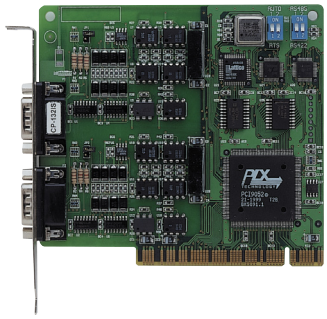
Transio Family

Transio A52/A53

Smart RS-232 to RS-422/485 Bi-directional Converter

- RS-485 ADDC (Automatic Data Direction Control) with no baud rate switch setting hassle
- RS-422 supports CTS, RTS signals for hardware flow control
- Over current protection
- All RS-422/485 signals provide surge protection (25 KV ESD)
- All RS-422/485 signals support optical isolation protection up to 2 KV DC (A53 only)
- Built-in termination resistors (selectable)

Industio Multiport Family



Industio CP-132 Series

2 Port RS-422/485 Industrial Communication Board for PCI

- 2 RS-422/485 ports
- PCI bus
- Supports ADDC (Automatic Data Direction Control) intelligence
- Available with optical isolation and surge protection as options
- RS-485 data control: auto or by RTS
- Built-in termination resistors

ORDERING INFORMATION

CP-132	2 port RS-422/485 board
CP-132S	2 port RS-422/485 board with surge protection
CP-132I	2 port RS-422/485 board with optical isolation
CP-132IS	2 port RS-422/485 board with optical isolation and surge protection
All items include	* MOXA software CD-ROM: contains drivers, and MOXA PComm Lite serial comm development tool * Manual

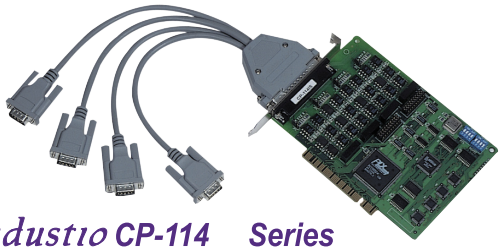
Industio CI-132 Series

2 Port RS-422/485 Industrial Communication Board for ISA

- 2 RS-422/485 ports
- ISA bus
- Supports ADDC (Automatic Data Direction Control) intelligence
- Available with optical isolation and surge protection as options
- RS-485 data control: auto or by RTS
- Built-in termination resistors

ORDERING INFORMATION

CI-132	2 port RS-422/485 board
CI-132I	2port RS-422/485 board with optical isolation
CI-132IS	2 port RS-422/485 board with optical isolation and surge protection
All items include	* MOXA software CD-ROM: contains drivers, and MOXA PComm Lite serial comm development tool * Manual



Industio CP-114 Series

4 Port 3-in-1 Industrial Communication Board for PCI

- Supports three serial interfaces in one board (2 ports for RS-232 or RS-422/485, selectable by jumper, 2 ports for RS-422/485
- PCI bus
- Available with surge protection and optical isolation as options
- Supports ADDC (Automatic Dara Direction Control) intelligence
- RS-485 data control: auto or by RTS
- Built-in termination resistors

ORDERING INFORMATION

CP-114	4 port RS-232, RS-422/485 board
CP-114S	4 port RS-232, RS-422/485 board with surge protection
CP-114I	4 port RS-232, RS-422/485 board with optical isolation
CP-114IS	4 port RS-232, RS-422/485 board with optical isolation and surge protection
All items include	* MOXA software CD-ROM: contains drivers, and MOXA PComm Lite serial comm development tool * Manual * Cable (DB 37 to Male DB25 x 4 connectors)
