

S-80

S-SERIES

The Network Box S-80 is a member of the Network Box S-M-E product range – designed to protect small offices, home offices and branch offices. Most small, home and branch offices do not have full time IT staff on hand. And in the case of branch offices, where the headquarters IT staff may have to look after dozens, or possibly even hundreds of branch offices; hardware reliability and powerful off-site management capabilities are an absolute must.
