50ft RapidRun® Plenum-Rated PC Runner Cable

The fast high performance in-wall solution for PC-based applications; UXGA resolution is ideal for projector and large display presentations!

RapidRun® is designed to be the standard for in-wall audio/video installations. The RapidRun system empowers you to customize your installation to create your own ideal audio/video solution. Break-away flying leads and wall plates ensure flexible, efficient, high quality connections for all types of equipment.

Use this plenum-rated PC Runner for in-wall installations that support computer-based applications. Whether hanging a projector in a modern 21st century classroom or installing a commercial digital signage system, a clean, crisp signal will be delivered every time.

Terminate with flying leads (with lengths up to 10 feet), or with wall plates (available in three colors) to meet the specific requirements of your installation.

Please Note: Each complete RapidRun PC Runner solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. For each runner you will need (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate.

• Color Code: Yellow
• CMP-rated for installations in plenum-rated spaces
• Each connector includes a protective pulling cap that can withstand 30 pounds of pulling tension
• Uses three 28 AWG coaxial cables with braided copper shielding, and three 26 AWG twisted pair plus a single 26 AWG pair
• Supports resolutions up to 1600 x 1200 pixels (UXGA resolution)

• Warranty: Lifetime
• Color: Black
