

HDB 41915

Single Pentium-M/Celeron-M Blade

Features

- ◆ 4U Form factor providing extreme density.
- ◆ Intel® Pentium®M processor w/thermal efficiency, designed to minimize power and cooling.
- ◆ Up to 2 Gbytes DDRII at 400/533MHz Speed, having good performance in mainstream applications.
- ◆ Dual Gigabit Ethernet (optional) and One Fast Ethernet ports, maximizing throughput efficiency.
- ◆ Two 2.5" SATA drives and CF optional kit, providing next generation high throughput storage solution.

Recommended Chassis

- ◆ HS416A

Applications

- ◆ Edge Computing - Such as Webserver, Application Server, PC Cluster.
- ◆ PC Blade

Specifications

Processors

- ◆ Supports Intel Pentium-M/Celeron-M Processors

Chipset

- ◆ Intel 915GM

Memory Type

- ◆ So-DDR2 400/533MHz SDRAM

Memory Capacity

- ◆ Up to 2GB in two 200-pin SO-DIMM Sockets

Disk Controller

- ◆ Onboard SATA 150MB/s Controller

Storage

- ◆ Supports Two 2.5" SATA HDDs or CompactFlash

Graphics

- ◆ Analog Intel 915GM On-die Display Controller
- ◆ Analog Display Supporting Pixel Resolution up to 1600x1200 at 85 MHz and up to 2048x1536 at 75 MHz. Hardware Acceleration for 2D/3D

Networking

- ◆ Onboard Two Gigabit Ethernet Ports (optional) and One Fast Ethernet Port

I/O Interface

- ◆ USB 2.0 Port

Ordering Information

- ◆ HDB 41915
- ◆ HDB 41915PC
