

ER8U-40CBL ADAPTER

Model : ER8U-40CBL

ER8U-40CBL Adapter :
2 of 8bit data to a 40pin target(16bit device)

Please Note: The E8U-40CBL Adapter is designed for 40 pin target DIP sockets. Our emulators receive power or detect power from PIN 32 of the DIP connector. It will download two of 8-bit data from two EeRom-8U through the 32-pin cables to 40-pin DIP target.
